**Henry Wang**

**Head of Investment – Asia and the Pacific | [Austrade](#)**

Henry has over 30 years' experience in international trade and investment with advisory and government bodies. He has been based in Beijing, Taipei, Singapore and Shanghai for over 25 years. He currently leads a team of highly qualified investment specialists to facilitate productive FDI from Asia into Australia. Prior to relocating to Australia, Henry was Senior Investment Commissioner for Greater China (2005–2021) where he led a team of highly qualified investment specialists in Beijing, Shanghai, Guangzhou, Shenzhen, Chengdu, Hong Kong and Taipei, promoting and attracting significant investment into Australia, across government priority sectors.

**Shawn Wolfe**

**Executive Advisor – Investment Advisory | [GHD Advisory](#)**

Shawn is an experienced finance executive, project leader, commercial advisor and company director with a focus on infrastructure projects, regulated businesses, government advisory and sustainability.

Shawn has worked across energy, water, resource recovery, transport, and public infrastructure. His experience ranges industry reforms, privatisations, tender processes, option analyses, business cases, project procurement, contractual structuring, and commercial negotiations. Shawn has held senior positions with KPMG, Victorian Government, PricewaterhouseCoopers, Goulburn Valley Water and GHD Advisory.

He has lived and worked in Australia, London and Washington D.C. He has a particular current focus on the global energy transition

**Dr Sarah King**

**Technical Director – Waste Management and Resource Recovery | [GHD](#)**

Dr Sarah King is a national leader in circular economy, with 20+ years of experience as an accomplished professional in both public and private sector roles. Sarah's specialist expertise lies in circular economy (CE), recycling, innovation, policy development, corporate sustainability management, and sustainable industry transition. Sarah invented 'ASPIRE', Australia's first CE matchmaking marketplace, and delivered Australia's first national CE roadmap.

Prior to joining GHD, Sarah established CSIRO's (Australia's National Science Agency) Ending Plastic Waste Mission as Work Package Leader for Waste Innovation. Sarah has delivered research and projects on; advanced (chemical) recycling of plastics, lithium battery recycling opportunities, supply chain options for remote recycling of problematic waste streams. Sarah has expertise in designing CE pilots including Australia's first trial of recycling disposable nappies using anaerobic digestion. Sarah is also an Adjunct Associate Professor with Swinburne University of Technology.

**Adi Bray**

**Investment Adviser – Asia | [Austrade](#)**

Adi is an Adviser at Austrade focussed on Circular Economy for the Asia region. She works with a broad range of teams and clients to facilitate productive FDI from Asia into Australia. She draws upon her work experience in China, background in Asian Studies, and International Law to deliver for Australia. Adi joined Austrade as a graduate, and previously worked in chambers of commerce and public diplomacy programs.
